DETAILED ACTION

REMARKS

Applicants' communication dated April 4, 2008 responding to the February 7, 2008 Final Office Action provided in the rejection of claims 1-57, wherein no claims have been amended and no new claims have been added. Claims 1-57 remain pending in the application and which have been fully considered by the examiner.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-57 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claims, including an invention of a support vector machine classification. Specifically, independent claims 1, 16, 31, and 55 specify defining a primal linear programming formulation of a support vector machine classifier (defined at e.g., page 12, paragraphs [0040] [0041], page 15, paragraph [0045]), solving an exterior penalty function of a dual of the primal linear programming formulation to produce a solution to the primal linear programming formulation (defined at e.g., page 12, lines 4-6). A practical application disclosed would be classifying data in fraud detection, credit evaluation, gene expression, intrusion detection, medical diagnosis, or medical prognosis (supported at e.g., page 1,

paragraph [0003]). To the extent that these features are not found in the prior art cited by the Examiner, the present case is held allowable over the art of record.

The Examiner was persuaded by the arguments filed on April 4, 2008 (see page 3 lines 19-25 and page 4 lines 1-10).

The computer readable medium has been interpreted as a tangible computer memory.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mai T. Tran whose telephone number is (571)272-4238. The examiner can normally be reached on 10:00 am - 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Vincent can be reached on (571) 272-3080. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
